PROFILE SUMMARY

Motivated B.Tech student passionate about Coding, AI/ML, Game Development and UI/UX Design. Proficient in Python, C, HTML, CSS, Canva, and Figma. Interested in Agentic AI and building impactful technology solutions.

EDUCATION

B.Tech in Computer Science and Engineering	2023 – 2027
St. Joseph's College of Engineering and Technology (KTU), Palai, Kerala	
B.Sc in Mathematics	2020 – 2023
St. George's College of Arts and Science (MGU), Aruvithura, Kerala	
Class 12	2018 – 2020
St. Antony's Public School, Anakkal	
Class 10	2017 – 2018
St. Antony's Public School, Anakkal	

SKILLS

Programming: Python, C, HTML, CSS
Tools: Git, GitHub, VS Code, Figma, Canva, Adobe Express
Operating Systems: Windows, MacOS, Linux (2+ years experience)
Concepts: AI/ML Basics, Agentic AI, Prompt Engineering

EXPERIENCE

Design Team Member, SAEI SJCET Palai	Jan 2025 – Jan 2026
- Designed posters using Figma, Canva, and Adobe Express. - Collaborated with team members to create visually engaging content.	
MuLearn Learner	Sep 2023 – Present
- Secured 3rd place in ScratchX (A Game Development Competition). - Achieved 2nd place in Think Ovation Ideathon. - Completed 30 days musprint challenge. - Reached Level 4.	
AI-Integrated Digital Marketing Intern, IPSR Solutions Ltd	Feb 2025 – Mar 2025
Worked on AI-based marketing strategies and campaign optimization.	
National Cadet Corps (NCC)	2020 – 2023
- Actively served as an NCC cadet, demonstrating discipline, leadership, and teamwork. - Assisted in organizing and hosting various events, war demos, and competitions including Best Cadet selection, RDC competition, and Tent Pitching Competition. - Successfully completed and passed both the B Certificate and C Certificate examinations during the three-year tenure.	
Volunteer – Byte Arena, Asthra 10.0 Tech Fest	2025
- Volunteered for Byte Arena, a mystery-solving competition conducted during Asthra 10.0. - Assisted in coordinating a multi-round event involving debugging-based clue solving, crossword challenges, and logical problem-solving tasks. - Acted as a “culprit” in the final interrogation round, contributing to an interactive and immersive experience for participants.	

PROJECTS

Customer Relationship Management System (C & SQLite)

Developed a menu-driven Customer Relationship Management System using C language with SQLite as the database backend. The system manages customer records, stores data efficiently, and performs operations such as adding, updating, deleting, and retrieving customer information.

[GitHub Link](#)

Server-Client Connection & Armstrong checking(C)

A simple IPC (Inter-Process Communication) project in C using Named Pipes (FIFOs) to check whether a number is an Armstrong Number through a Server-Client architecture. [GitHub Link](#)

CLI-Based Travel Itinerary Generator (Multi-Agent System)

Developed a command-line travel itinerary generator using a multi-agent system as the final project of the MuLearn Agentic AI Bootcamp. The system coordinates multiple agents to gather inputs, process travel preferences, and generate structured travel plans efficiently.

[GitHub Link](#)

Pocket Diary – Chrome Extension

Developed a minimalist Chrome extension to instantly capture, store, and export ideas efficiently. Designed for quick note-taking with a simple and distraction-free interface.

[GitHub Link](#)

Retro Space Shooter – Asthra 9.0 Tech Fest Project

Developed a 2D space shooter game featuring a spaceship navigating through asteroids and alien enemies. Implemented hand gesture controls to steer and shoot using computer vision techniques. Players start with three lives and score points by dodging obstacles and eliminating enemies.

Tech Stack: Pygame, OpenCV, MediaPipe, Gimp 3.0, Figma, Canva

[GitHub Link](#)

Space Project 5.0 – Scratch MIT Project

This is a 2D game of a Infinity Spaceship Ride,the path is infinite but along the path there is asteriods you can either dodge it by using left or right arrow keys or shoot it down by pressing Q.

Tech Stack: Scratch Game Engine, Adobe Express, Canva, Figma

ACHIEVEMENTS

- **1st Place** – SAEINDIA Bio-Mimicry Ideathon college level (2025)
- **2nd Place** – Mobile App Development Competition, SAEINDIA college level (2025)
- **2nd Place** – Think Ovation Ideathon, MuLearn, South Zone Level (2026)
- **3rd Place** – ScratchX Game Development Competition, MuLearn, South Zone Level (2026)
- **Best Position** - IEEE-CS/RAS Web Competition for College of Engineering Karunagappally (Aug 2025)
